ATHENA

Modular Vanity & Mirror Collection

A place for everything.
A space that feels uniquely yours.

THE STORY BEHIND ATHENA

It started with a moment most of us know too well.

You reach for your moisturiser and knock over three other things. You open the cabinet and something falls into the sink. You spend the first five minutes of your morning searching, rearranging, managing the clutter — before the day has even properly begun.

We noticed something: women had transformed their kitchens into systems of beautiful logic. Their wardrobes were curated. Their desks were intentional. But the bathroom — one of the most-used rooms in the home — was still an afterthought. Shelves too shallow for what they actually owned. Mirrors that gave them light but nothing else. Cabinets designed around a space, not around a life.

Your day begins here.
And ends here.

A little space that feels like your own.

The bathroom is where you prepare for the day - and where you return to yourself at night. ATHENA was created to make those everyday moments feel calmer, warmer and more personal.

Thoughtful storage keeps what you need close at hand. Modular choices let you shape the look around your space, your routine and your style.

Your own sanctuary
Every day.

ATHENA is modular by design, because no two bathrooms are the same, and neither are the women who use them.

Whether your wall is 350mm or 2000mm wide, ATHENA adapts. Mirror cabinets, lit mirror cabinets, open shelves, side columns — each piece is designed to combine seamlessly, the storage, lighting and mirror space you need, nothing more, nothing less.

Your high-frequency essentials, close and easy. Your less-used pieces, quietly tucked away. Your makeup, your skincare, your little rituals — each with a place that makes sense.

A place for everything in your bathroom. And finally, everything in its place.

Everything within reach

ORGANISE

your bathroom with

HERA BATHROOM

BEAUTIFUL OUTSIDE.
SMART INSIDE

Built-in Drawer Organisers

A place for everything.
Everything within reach.

MIX & MATCH

Build your ATHENA.

Personalisation should feel inspiring-not complicated. Start with what fits, then build the details around how you live.

01 SIZE — Choose 40 cm or 46 cm depth, then the vanity width that fits your bathroom

02 COLOUR — Select the cabinet finish that sets the mood for your bathroom

03 TOP — Choose ceramic, glass, or SELENA tabletop with art basin

04 STORAGE — Keep it open and accessible- or add a concealed drawer underneath

05 MIRROR — Build the mirror wall around the storage, width and look you want

Choose. Combine.
Organise. Personalise.

HERA Stylist Tip
We help refine the final combination.

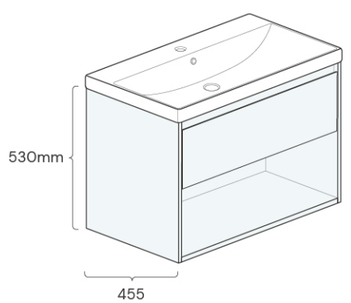
STEP 1.CHOOSE YOUR VANITY

Start with what fits.

46 cm depth

MORE GENEROUS DEPTH

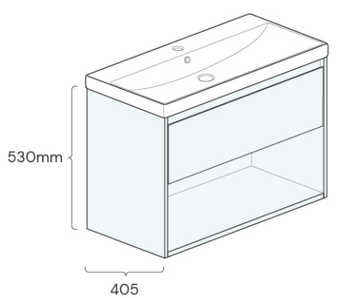
When the bathroom layout allows, the deeper profile gives a more generous counter and cabinet feel for everyday use.



40 cm depth

SLIMMER PROFILE

A slimmer profile for bathrooms where every centimetre matters especially layouts where a deeper vanity may interfere with an adjacent wall or door.



STEP 2.CHOOSE YOUR FINISH

Set the mood.

Choose the finish that feels most like your home. Matching cabinet colours create visual calm; complementary open shelves can add a subtle accent.

Slate Grey SG | Brown Walnut BW | Grey Oak GO | Ash Wood AW | Milk Tea MT | White W

MATCH

Vanity and mirror cabinets in the same finish for a calm, coordinated look.

MIX

Keep the main cabinets coordinated, then introduce a complementary open shelf as your personal accent.

STEP 3.CHOOSE YOUR TOP

Different tops. Different character.

The vanity is your foundation. The basin or tabletop changes how the whole piece feels.

STEP 4.CHOOSE YOUR STORAGE

Keep it open.
Or keep it out of sight.

Every ATHENA vanity can be fitted with an additional drawer underneath.

Open & Accessible

For towels and everyday essentials you want within easy reach.

Clean & Concealed

Add the drawer for the things you want close at hand but not on display.

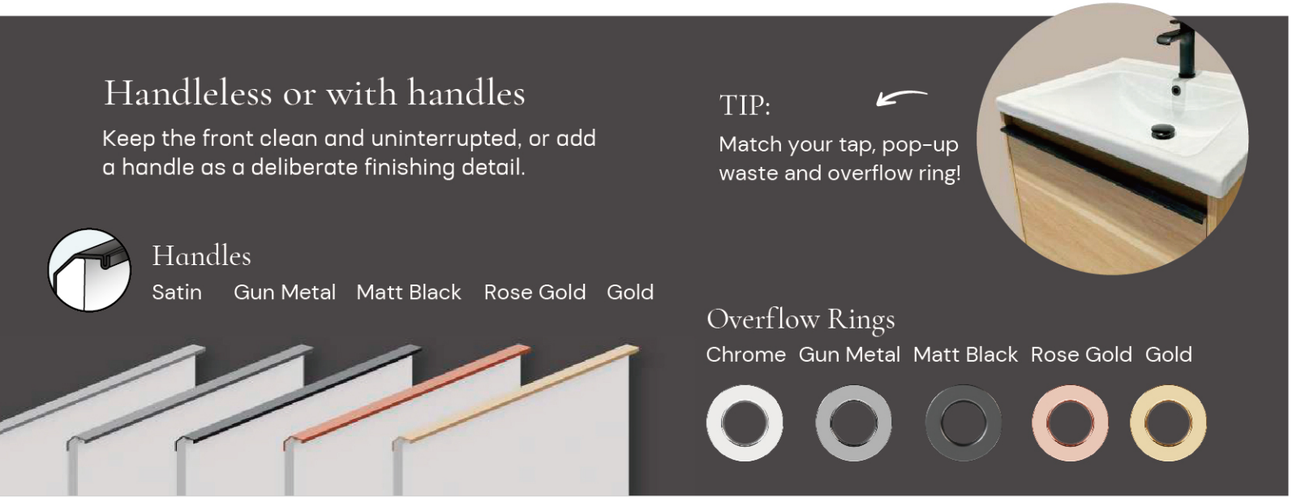
Visual calm. Functional calm.

PERSONALISE THE DETAILS

One finish. One coordinated look.

Handleless or with handles

Keep the front clean and uninterrupted, or add a handle as a deliberate finishing detail.



TIP:

Match your tap, pop-up waste and overflow ring!

Where Stillness Begins

The bathroom is the one room in your home that belongs entirely to you. Those first fifteen minutes before the world asks anything of you. The quiet exhale at the end of the day. ATHENA was designed to protect that.

When everything is where it should be, you stop managing your space and start inhabiting it. The morning feels less rushed. The evening feels more like yours.

That is what we built ATHENA for — not just beautiful storage, but the quiet sense of calm that comes when a room finally works the way you always wanted it to.

Storage first

Customers typically prioritise maximum useful storage, then refine the look and functions around it.

A common 700 mm height

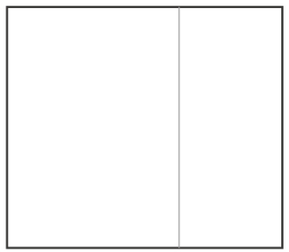
Mirror modules stay 700 mm high, creating a clean horizontal datum across the wall.

BUILD TO YOUR WALL

Same vanity.
Different mirror possibilities.

Your mirror can follow the vanity width, extend beyond it or build towards a wall-to-wall composition, depending on available space, storage needs and the look you want.

COMPACT



80 Mirror

A clean, straightforward solution when the wall is tight.

BALANCED

80 Mirror 25 Shelf

Adds open access while keeping the composition compact.

EXTENDED

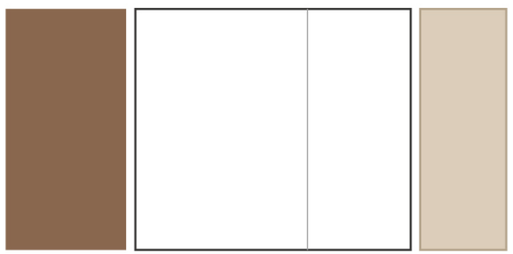
More mirror and more storage when wall space allows.

STORAGE WALL



35 Deep 80 Mirror 25 Shelf

Use the deep-storage cabinet as part of a larger modular wall.

Build for your storage.
Balance it for your wall. Finish it for your style.

DESIGNED FOR HOW YOU ACTUALLY LIVE
